FIG. 7

1. The first step is to identify the problem. This involves understanding the situation and the goals that need to be achieved.

2. The second step is to gather information. This involves collecting data and resources that will be needed to solve the problem.

3. The third step is to develop a plan. This involves creating a strategy and a timeline for solving the problem.

4. The fourth step is to implement the plan. This involves putting the strategy into action and monitoring progress.

5. The fifth step is to evaluate the results. This involves assessing the effectiveness of the solution and making adjustments as needed.
